COLORS

THESE COLORS GIVE LIFE & PERSONALITY TO OUR IDENTITY
Our colors are confident and hope-filled. Like a healthy plate of food, they bring a colorful sense of hope and joy to what FMSC does in feeding starving children around the world. Follow these guidelines on how to use our colors appropriately.

PRIMARY COLOR PALETTE
PMS 647 is the main color for representing FMSC. This should be the primary color on any piece.

SPOT COLOR PROJECTS
Pieces that are not a four-color job should include PMS 647 as one of the selected colors. Use Black or PMS 647 for one-color jobs.

SECONDARY COLOR PALETTE
The secondary colors are to be used as supporting elements to the primary PMS 647. In order to keep FMSC recognizable, stick to these colors. Never use the secondary palette as a color for the FMSC logo. You may use tints of these colors.

Feeding God’s Starving Children Hungry in Body and Spirit

Turn Hunger into Hope with Your Own Two Hands

Meals packed locally by volunteers. Food shipped worldwide by FMSC.

“For I was hungry and you gave me something to eat…” – Matthew 25:35

“For nothing is impossible with God.” – Luke 1:37

“The generous will themselves be blessed, for they share their food with the poor.” – Proverbs 22:9

MobilePack™, MannaPack™
Photos should be chosen strategically to tell FMSC’s story and mission. They should be chosen with care to visually communicate to the volunteer or donor who FMSC is and the hope that FMSC food provides. These include child photos, before & after photos, living condition photos and volunteer photos.

**TIP**
Use our compelling photos from [Flickr.com/fmsc](http://Flickr.com/fmsc)

**PHOTO LOCATION**
Designate the country that the photo is from with the pin icon when possible.

**CHILD PHOTOS**
Hope should always shine through these photos. Avoid using photos of children who are crying, or malnourished unless specified or in a before & after story. Photos of children holding FMSC food or eating FMSC food should be used as much as possible. When using multiple child photos, use a variety of races and genders. Designate country with pin marker when possible.
PHOTO USE

BEFORE & AFTER PHOTOS
Emphasise the after photo whenever possible. Always caption the photos to designate before and after MannaPack.

LIVING CONDITION PHOTOS
These are often used to show the need for FMSC meals in a community and to set the scene for a volunteer or donor.

VOLUNTEER PHOTOS
A variety of ages, genders and races should be shown when possible. Volunteers should always be wearing a hairnet if in the packing room and jewelry should not be visible. If they are scooping ingredients, they should be wearing a glove. Consent must be given for photos of children under 18. Nametags should not be shown.
VOLUNTEER. DONATE. LEARN MORE.
